

ENVIRONMENTAL ASSESSMENT

Product: ESHA Universal

Application: Roofing membrane for flat roofs, mechanically fixed

Functional unit: 1m² roof covering incl. fastening materials of a waterproof flat or sloping roof with a maximum inclination of 20 ° that meets at least the requirements of the Building Decree, based on a roof of 1000 m² (40x25 m²) as representative for roof surfaces of more than 50 m². The observation period used is 75 years.

Compared with (amongst others): Bitumen, SBS en APP modified, roofing
EPDM roofing
Vegetal membrane
POCB roofing
PVC roofing

Result: The product ESHA Universal has been evaluated as one of the most environmentally friendly options and therefore is a good sustainable building choice.
